MR. AND MRS. AUGUST C. ALBRECHT

BY EDNA S. DUTTON
Marion Star Staff Writer

FAST boats with all the luxuries of a first class hotel make the journey between Germany and the United States something of a lark now but in the days when Mr. and Mrs. August C. Albrecht of 425 South Vine st bade farewell to family and friends in the old country more than 60 years ago it was a momentous undertaking and something to be taken quite seriously.

Mr. and Mrs. Albrecht today take keen pleasure in recalling the events of their well filled lives

BOARD ADOPTS RULES, BY-LAWS FOR PENSIONS

Age of 50 and 25 to 30 Years Service on Force Set as Requirements

MAXIMUM TO BE $100.

Care of Widows and Children Provided For in New Regulations.

City firemen will be eligible for pension when they have served in the department between 25 and 30 years and after they have reached 50 years of age according to rules and by laws of the board of trustees of the firemen's pension fund adopted last night.

Pension on which the men will retire will be determined on a sliding scale basis of service. The rules and by laws will become effective April 1.

When a fireman has reached an age of 50 and has been in service for 25 years he is eligible for a pension of one-half his salary.

For each succeeding year of service after 25 three and a half per cent of his salary is added to the pension until a total of 67½ per cent has been reached.

Maximum at 30 Years

The maximum on this basis would be reached after 30 years of service. Regular firemen may obtain a maximum pension of $100 a month by serving 30 years.

In case of disability through any accident or ill health sustained in service, a firemen automatically receives 67 percent of his salary, after his disability has been proven by two physicians. This percentage of his salary continues in the form of a pension until he has recovered, at which time he may be required to return to the force.

Dependents are provided for in the pension by laws. Widows of firemen will receive $50 a month from the pension board as long as she is a widow. An allowance of $15 a month for each dependent child up to an age of 18 years is provided for. However no widow and her children may receive more than a total of $100 a month from the pension board.

Approval of the sliding scale method of determining the amount of a pension was expressed by Fire Chief F. J. McFarland this morning. Chief McFarland is also president of the board of trustees of the firemen's pension fund.

Incentive to Remain

With three and a half percent added each year to his pension after he becomes eligible a fireman is un

Geo. F. Baker, Lone Survivor of Mighty Finance Group, Busy at Age of 90

Noted New York Banker Celebrates Anniversary at Georgia Retreat.

By The Associated Press

BRUNSWICK, Ga., March 27 —George Fisher Baker lone survivor of a powerful group of financiers who commanded money and industry at the beginning of the twentieth century today observed his ninetieth birthday at his Jekyl Island retreat.

Still active in the conduct of a wide variety of enterprises the aging New York banker whose silence has become a legend planned a quiet day marked only by a family dinner. His son, George F. Baker Jr. his daughter Mrs. J. St. George and her son George St. George all of New York and F. F. Loomis president of the Lehigh Valley railroad were with him for the occasion.

Abandons Golf

Mr. Baker reads little now, but has much read to him. He has abandoned golf a recreation which he took up at 70. In its place he finds diversion in an automobile ride over the island which is approximately eight miles long and two miles wide.

GEORGE F. BAKER

Still Active in Wide Range of Important Business Enterprises.

Mr. Baker came south in January and is in excellent health. The island eight miles from here is owned by the Jekyl Island club an exclusive organization of 100 millionaires. Rare game frequents the island and virgin forests offer a scene of unusual pictorial beauty.

Still 'In Harness'

Unlike that other celebrated American, John D. Rockefeller Sr. who also has reached his ninetieth milestone Mr. Baker as chairman of the board of the First National bank of New York City and a director in other large corporations still is in the harness if work—if not of idle duties, yet of great responsibilities.

He attends regularly the board meetings of his bank and of other businesses in which he is interested. Within the last year he has been on inspection trips over two railroads. He generally is credited with owning 20,000 shares of stock in his bank holding which alone are valued at more than one hundred million dollars.

COMMITTEE TO HEAR SUGGESTIONS TODAY

House Judiciary Will Listen to Enforcement Commission's Recommendations

By The Associated Press

WASHINGTON, March 27—The recommendations of the Hoover Law Enforcement commission for improving the administration of the prohibition laws today engaged the attention of the House Judiciary committee in executive session.

The committee public hearings on measures proposing repeal of the Eighteenth amendment which have been dry laws steadily re-iterated by wet spokesmen and then staunchly defended by dry drys were in recess until next week.

They will be resumed on Wednesday with the prohibitionists continuing the presentation of witnesses and concluding their case before the close of the day's session. Then under present plans the hearings will be discontinued for two weeks after which the wets will offer rebuttal testimony.

Next week's dry witnesses are expected to include F. Scott McBride general superintendent of the Anti Saloon league.

Of the four legislative proposals made by the law enforcement commission one—a recommendation that the prohibition unit be transferred from the treasury to the justice department—has been passed by the house and is now awaiting consideration by the senate.

Important among the others was a recommendation that the powers of United States commissioners be so broadened that they may try minor offenders against the prohibition laws in order to relieve congestion in federal courts.

College Students Vote in Favor of Modification

CAMBRIDGE, Mass. March 27—Prohibition got very few marks in the colleges and universities of the nation.

Of the 24,050 votes cast in the 14 institutions, 11,006 were in favor of modification, 5,589 desired total repeal of the eighteenth amendment to the federal constitution while 4,817 favored strict enforcement.

Mrs. Baker smothered the fire by wrapping a towel around her head, and suffered only singed eyebrows and badly singed hair.

The oven exploded when Mrs. Baker opened the door while preparing breakfast. Gas had collected in the oven.

10 LOSE LIVES IN CHICAGO; 3 DIE IN OHIO

Snow and Freezing Temperatures Tie Up Rail and Highway Traffic.

LITTLE RELIEF IN SIGHT

Bus Service Between Marion and Toledo Suspended as Roads Drift Shut

The late March blizzard which struck Ohio Tuesday night today held most of the state in its grip and had accounted indirectly for three deaths. Highways were all blocked railroad and interurban travel was nearly at a standstill and temperatures were down to mid winter levels, Associated Press dispatches state.

Stiff winds which blew heavy snows into deep drifts in many places also were charged with causing the three deaths. Wilbur Jones 36 of Cincinnati and Richard Beaman 13, of Cleveland were asphyxiated in their garages when wind blew doors shut while motors in their automobiles were running last night. Near Woodville, wind driven snow is believed to have blinded the driver of a car which went into a ditch killing George Egger 17 of Millersburg.

Practically the entire northern section of the country east of the Mississippi river was locked in the grip of the storm. Ten are dead in Chicago as a result of the blizzard. Many cities reported traffic at a standstill and schools closed.

Marion lay in the grip of three inches of snow and sub zero temperatures today as the unseasonable blizzard continued almost unabated.

Snowfall of two inches last night left a three inch blanket of white on the city this morning. A low temperature of 2° degrees was reached last night following a 17 degree drop yesterday.

Unchanged temperatures and snow flurries with cloudy weather are predicted for today and Friday.

Bus service between Marion and Toledo has been suspended until snow has been cleared from the highways north of Findlay. The line northbound for Toledo from Marion this morning was stranded for several hours in a snowdrift reported to have been over four feet deep. All trans continental lines of the Greyhound lines have been stopped in Chicago since early Monday night. It is hoped that all angles to the situation will be relieved by late this afternoon. Toledo Detroit roads are also blocked by snow.

Cleveland reported snow accompanied by lightning and thunder and a drop in the mercury to 26 degrees, the lowest mark for March 30 in seven years. Columbus shivered and pedestrians plodded through almost an inch of snow.

Ice coated lines piled over Lake Erie. The Steamer Conger the largest oil burning fishing tugs on the great lakes arrived in port at Sandusky coated with ice after an all night battle in the storm.

Aircraft Allison of the Lincoln was the worst for this time of the season in many years. The temperature there dropped to 20 degrees at 6 a.m. But it had risen to 30 by 9 o'clock. A heavy snow at 10 was coming. A Norfolk valley train on car was

By The Associated Press

Myers Cleveland Democratic nominee for lieutenant governor and governor in 1928 entered the lists several weeks ago.

By The Associated Press

BAD AXE, Mich. March 27—Bound with adhesive tape, a dog collar and rope to the driver's position in her automobile Mrs. Elsie Mills 25 of Detroit drove into a filling station three miles south of here late last night and told of having been kidnaped near her home. She and her husband she said had received notes threatening them if they appeared in a civil suit filed against them by a former landlord.

Two of three men in another car she said jumped into her machine. They fastened her left hand to the steering wheel with a dog collar and adhesive tape taped her right hand to the gear shift lever and tied her left leg to the steering rod post in such manner as to be over the clutch pedal.

Two of the men remained in her car and forced her to drive from 4:45 p.m. until nearly midnight apparently seeking a bank in which she believed they intended to rob person her. The third man followed in another car. When the latter became stalled on a snow covered road ten miles south of here Mrs. Mills said the two men with her got out and went back warning her not to move.

I took a chance and drove away as fast as I could, she added.

A search by Sheriff John L. Hoffman failed to find any trace of the men or the stalled machine.

Successful at Germantown Today After Visit to Moneyless Bank Yesterday.

DAYTON, O. Police believe that the men may be the same ones who raided the First National bank at West Alexandria near here yesterday only to find that the bank was in the hands of receivers and had no money in it.

Bank Just Opened

The robbery today occurred just as the bank had opened its doors for the day's business. Two bandits who entered the bank helped themselves to the currency.

By the Associated Press

AKRON, March 27—Liquor believed responsible for 20 cases of paralysis in Cambridge must be tested for poison under direction of Akron authorities. It was said the paralysis cases were due to drinking poison liquor obtained from bootleggers who admitted bringing it from Akron.

Captured rum runners also admitted distributing their liquor in southeastern Ohio and northwestern West Virginia and it was considered possible that more than 100 cases of paralysis in and near Cincinnati might have followed its consumption. Previously the southeastern Ohio paralysis cases have been attributed to drinking Jamaica ginger.

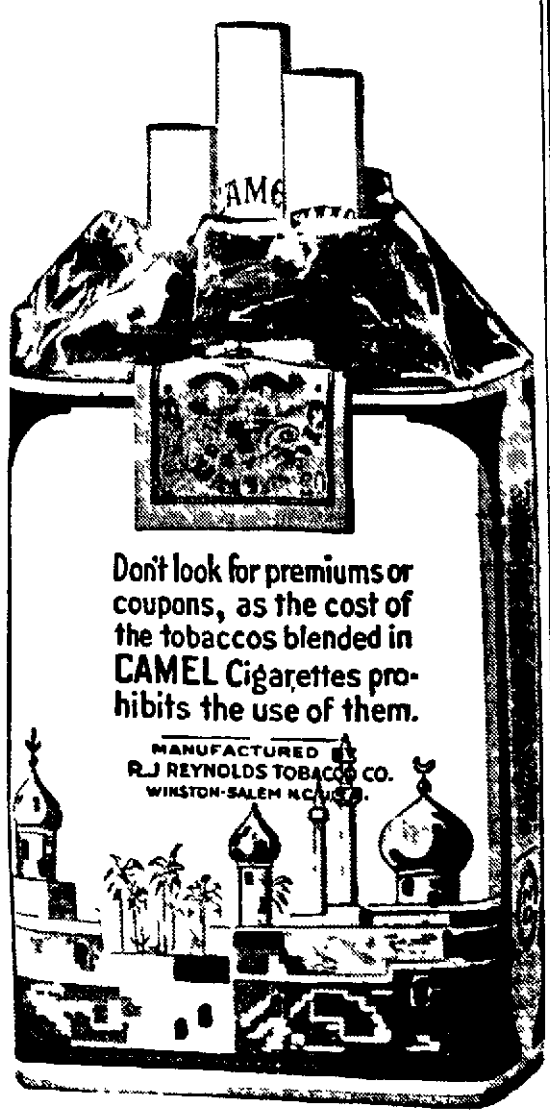
THE WORDS on the back of the package still mean what they say. No "extras," which do not contribute to the quality of the smoke, are included in the price of Camels. Just the utmost smoke-enjoyment that modern science can put into a cigarette.

That statement was on the first package of Camels manufactured and has been on every one of the billions of Camel packages sold from that day to this. When it was first written, other cigarette manufacturers were giving away flags, pictures of actresses, pictures of ball players—almost anything that would make the smoker think he was getting something *extra* for his money. The makers of Camels believed the smoker wanted a cigarette sold strictly on its merits, with all of its cost put into quality—a cigarette made of such excellent tobaccos—so perfectly blended—so mellow—so fragrant—that it would win its own way.

The vast popularity of Camels is a tribute to that four-square policy.

CAMELS *for pleasure*



Don't look for premiums or coupons, as the cost of the tobaccos blended in CAMEL Cigarettes prohibits the use of them.

some gangsters' feud which possibly extended to other Ohio cities. The victims were last seen Tuesday when they left the Akron

Suspect Arrested

It was believed Akron bootleggers might have been the murderers when a girl friend was taken into custody in connection with the slaying. The girl, a former Akron resident, was arrested in Cleveland by police who said she had been living with one of the men. The other two, believed to be Akron gangsmen, talked of plans to "clean up" Akron as they stepped out of a beer wagon here Tuesday.

The usual garroting was believed to have taken place between Akron and Cleveland shortly before the bodies were left in the abandoned car early Tuesday. The bodies were discovered late night by Deputy Marshal George E. Larkin who went to investigate neighbors reports that the car had stood there all day.

Both bodies had been shoved head foremost into the rear compartment of the coupe and the hands and feet of both had been trussed with clothes line. A blood stained towel was wrapped around the neck of the older man, who apparently had fought his slayers.

The bodies were found only a short distance from the place where Isadore Silverstman and Shlang Schiller, hijackers and bootleggers, were shot to death and ice picks driven in their skulls last July.

WARDEN'S TALK PREVENTS RIOT

Threat of Rebellion Over Prison Menu Halted with Peaceful Compromise.

By The Associated Press

JEFFERSON CITY, Mo., March 27.—The 1,600 Missouri convicts awakened to the cruelties of the Middle Ages yesterday today without having tasted the "fried men" they seemed to two hours of hard rowing with boils and blisters on their hands.

It was then the spoke hole in the promises for menus improvement of Warden Lewis Bidgood who served the 1,600 pounds of fresh beef, four barrels of potatoes, 75 gallons of tomatoes and seven bushels of onions as a food supply was probably not what it should have been.

Credit for the quieting of the incipient riot went to the warden who entering the dining hall alone, told the convicts any complaints about food would be considered. Hissed as he started to speak, the warden's words pacified the prisoners and they marched orderly to their cells without a sign of violence. They also received lime. The men were given canned prunes, bread, syrup and coffee for their night meal.

National guardsmen summoned when the rebellion was first reported entered the prison as the peaceful dispersal began from the dining room. Other units mobilized in neighboring cities were dismissed before they got under way for the prison.

WATZL'S CREMATION REQUEST IS IGNORED

Relatives of Suicide Victim Arrange for Burial in Vienna Cemetery.

VIENNA, March 27.—Unheeding sealed messages from his deserted wife in Cleveland to observe his wish that his ashes be mingled with those of Mrs. Mary MacGranahan, the woman with whom he died in a suicide pact, Dr. Ernst Watzl's relatives arranged today for his burial in Woodcliff cemetery.

Mrs. MacGranahan's body was being held today for positive identification upon orders received by the police from the husband she left in Cleveland to elope and become the

[illegible] famous wife of Watzl. A friend of Mr. MacGranahan was supposed to come yesterday to claim the body but did not appear.

The bodies will be cremated today, it was learned, instead of the ashes being shipped as previously ordered. The Viennese friend of Watzl had said he believed the ashes of Mrs. MacGranahan should be at the woman's side unless directions to the contrary from her husband.

Although the rules of the Catholic church refuse ice deliveries to graves, arrangements have been made to keep the bodies cool today, it was learned, pending the last blessing to those who had loved ordered cremation and to the [illegible] happiness.

The Important Reason

FATS and oils are not digested like starches or proteins, they must first be emulsified in the body before they can be utilized as nourishment.

SCOTT'S EMULSION

is pure cod-liver oil scientifically *emulsified*—prepared for easy and rapid digestion, just as Nature provides emulsified fat in milk.

This is the important reason why the cod-liver oil you take—should be emulsified—should be Scott's Emulsion.

Daily Proverb— The man that is happy in all things is more rare than the phoenix.

Two Tiffin men who held up the state bank at Republic have been sentenced to twenty years and a day each in the Ohio penitentiary. The attractiveness of bank robbery as a great indoor sport is steadily diminishing.

A federal district judge up in Milwaukee has held that the smell of liquor is sufficient warrant to raid a private dwelling. We take it that weis will now refer to them as sniffers rather than snoopers.

It is now said that poison whisky and not Jamaica ginger caused the many cases of paralysis reported from different parts of the state. As we understand it, the worst Jamaica ginger does is to eat out the drinker's kidneys.

An Associated Press survey shows employment gains in Ohio industry and President William Green of the American Federation of Labor reports that unemployment decreased slightly throughout the country during the first two weeks of the present month for the first time since last August. It begins to look as though the country is on its way back to the seasonal normal.

There are many ways of breaking into the rays of the publicity spot light, but that chosen by the Princeton college professor who recently praised soviet Russia's campaign against God and religion has all the earmarks of being absolutely unique.

Aimee Semple McPherson, her daughter, her mother and a company of her followers are enroute from Los Angeles to New York in a private car planning to sail for a trip through the Holy Land. It was about time for Aimee to make some move or other. She has been off the first page for months.

The Canadian house of commons has passed by a vote of 173 to eleven the bill to refuse clearances of cargoes of liquor destined for the United States. If it passes the senate it should materially lessen the work of the coast guards on both oceans and the Mexican gulf. There can no longer be question that the enforcement lines are being more closely drawn to exclude rum.

An Incentive to War.

Those both here at home and abroad who would have the United States forgive European powers the so-called war debts they owe this country not only debts incurred by them during the war for war purposes but the debts contracted by them here for their industrial and economic rehabilitation as well, should consider thoughtfully a point made by Owen D. Young in an address delivered by him recently in Berkeley on the occasion of the sixty second charter day of the University of California.

Expressing himself as having great confidence in the ability of Germany to pay the reparations agreed upon, although admitting that time only will tell whether the burden placed upon her is too great for her to bear, Mr. Young brought out that her creditor nations have undertaken under the Paris plan to collect from her a sum which is approximately fifty per cent in excess of their aggregate debts to the United States.

Each of these countries you will remember had protested against the burden of their indebtedness to the United States, even under the favorable debt settlements made, said Mr. Young. Yet they have paid Germany the compliment of assuming that she can bear the burden of them altogether with a substantial premium.

Mr. Young made manifest that he based his belief in Germany's ability to pay on the German people. He recognized the fact that Germany hasn't a large supply of what the world calls basic raw material, but he has in mind her possession in large measure of a supply of raw material which too often is given little consideration in world affairs—"a capacity for scientific research and the ability to apply it and organize it in production," and then he uttered this warning which all nations as well as all individuals will do well to consider.

"We should all remember that the discipline of hard work and heavy responsibility is likely to do much for a people as well as for an individual. Let no man be sure, let no nation be sure, merely because he is a creditor of some one else's hard labor that therefore he is strong and will always remain so."

If we get Mr. Young's thought correctly, the severity of the terms to which a prostrate Germany was compelled by the Allies to agree stands as a constant incentive to war, not necessarily a war fought by armed forces, but an industrial and commercial war in which the victors in the great world conflict may become the economic vanquished nation to defeat.

The Optimism of Mr. Mellon

[illegible] ward over the past seven [illegible] forward to the [illegible] it matters little what may be [illegible] lines of honorable accomplishment [illegible] the years should be more than ordinary [illegible] in the views of Andrew W. Mellon, who has attained prominence in many a field of endeavor, public and private, but in no field of activity has he attained greater distinction as one who has actually served his country, under three presidents, as head of the treasury.

Making a short talk before a dinner party given in his honor by a few of his friends Monday night, the seventy-fifth anniversary of his birth, Mr. Mellon, following a review of the great events of the past, declared that period has carried mankind forward to a degree and has raised the whole plane of existence to a higher level.

He said that it seemed to him that what had been accomplished during that period was that the average person in this country now commands the means of a comfortable existence to a greater extent and with less effort than ever before in the world's history.

I do not mean to say, he explained, that we have attained an equality of opportunity. No nation ever has attained it. But here in America if we haven't arrived that aim toward which we have been striving, at least we are on the way toward realizing it even though we have an [illegible] to be dissatisfied with our present progress.

Expressing his satisfaction that he had been permitted to live in the seventy-five years that he had the secretary written:

Life has been and still is both full and interesting, and I shall go when the time comes as a satisfied guest from life's banquet. But if I were given the opportunity to exchange my own period of time for any other, I would choose without hesitation the next three quarters of a century.

In a word Secretary Mellon looking backward over the past seven-five years and the array of gifts they have brought for the convenience, comfort, benefit, advantage and advancement of mankind and regarding as well the advance they have worked in the scheme of living, yet looks ahead to the coming seventy-five years as of greater promise for human advancement for nearer approach to that stage in life's development when there shall be equality of opportunity to all.

It's a fine viewpoint, that of this great financier of seventy-five and from it he looks into the future with highest optimism believing that what has gone before is but a prophecy of the development which is to come. Such optimism is refreshing, especially when manifested by one who may be classed as an international figure in the face of the prevalence of a spirit of pessimism which sees the civilized world going to wreck and ruin.

Senator Borah holds that Mr. Legge should demonstrate his fitness to deal with the farm situation before he undertakes to advise with reference to legislation. Mr. Legge might come back with the retort that the senator should demonstrate his fitness to deal with the legislative situation before undertaking to advise about how pretty much everything else under the sun should be handled.

Chicago's weatherman who predicted "Cloudy Tuesday, possible local rain or snow" is said to have been shocked when there rip roaring blizzard broke over the city and tied up traffic. If it will be any consolation to him, he may recall that there have been others, notably the Washington man who predicted fair weather for the Taft inauguration and saw the Capital City experience the worst blizzard in its history.

The proposed Zeppelin line to be operated across the North Atlantic is said to be backed by millions of dollars. A lot of people would want a million or two before entrusting themselves to such a flight and we are more than half inclined to believe we can name one of them.

Should Be Handled Locally

Some time during the latter half of next month the school board will award the contract, or contracts for the construction of a junior high school building at the corner of Bellefontaine avenue and Chatfield road—a project which will run into the neighborhood of $300,000. We should very much like to see this project handled locally.

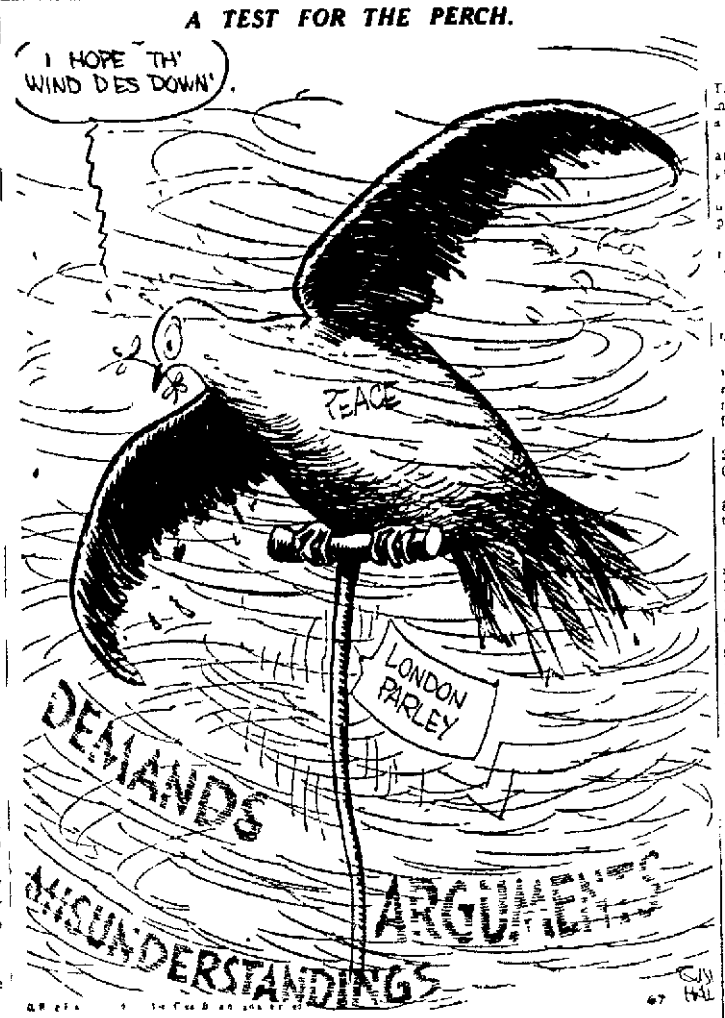
There is no lack of appreciation of the fact that the local bidder is under something of a handicap as compared with the outside bidder, as he has to live here and carry on and must necessarily stand behind his work regardless of the expiration of any bond for compliance with the building specifications but regardless of this fact we would like to see some local contractor or contractors get the job.

The board of education under the law may in its discretion reject all bids or may accept any bid for labor and material which is lower in the aggregate, but if it accepts a bid it must be that of the lowest responsible bidder. Thus the law fails in its result to reward the contractor locally only with the local purse, it is the lowest responsible bidder.

I would like to see the board [illegible] to find [illegible] the work being [illegible] some employment [illegible] local industry [illegible] Their too would [illegible] pride which is [illegible] brought here [illegible] the community [illegible]

The election [illegible] lower house [illegible] Florida district has [illegible] body and it requires only [illegible] house in sustaining the [illegible] that its membership is capable [illegible] straight in the matter as [illegible] the committee making the report [illegible] tes from the first was doomed [illegible]

A TEST FOR THE PERCH.



Poor Health and Eruptions

BY ROYAL S. COPELAND, M. D.

At the close of this winter or in the spring of the year we are likely to have uncomfortable skin troubles. While a person is in a run-down condition he can ascribe to disease is low then it is that the germs of disease gain entrance to the body. In one way or another they break through our defenses.

If the skin is not kept scrupulously clean germs may gain access to the body through a scratch or other spot in the skin. A boil may soon appear at that spot. It may become a crop of boils—those painful and disagreeable visitors that make us endure them.

They may attack any part of the body. One of the most painful things in the world is the small boil which comes in the ear or to the nose. It may think they can bring the boil to an early pressing of the contents. This is the wrong thing to do, because the squeezing breaks down the tissues surrounding the infected area. In this way the infection spreads.

Boils are an indication that the victim is in poor health. Your doctor should be asked to give you a physical examination and advise you about building up your health. Make sure you are not constipated. Avoid an excess of fats in the food. Take plenty of physical exercise. Drink plenty of water. Take fresh lemonade several times a day. It is one of the best of remedies.

When a boil first appears it may be aborted by an application of iodine or some other antiseptic. If this is unsuccessful, hot applications frequently [illegible] will relieve the inflammation. [illegible] develop and there follow [illegible] the staphylococcus should be studied.

Your doctor will see that you have no kidney trouble. Boils and carbuncles often accompany cases of diabetes or some kidney disease. Your general health should be built up and this advice should not be neglected.

Elmer walked to school with her three times. Then he told Joe and carried her books. Bought her ice cream sodas twice. Now do you think I ought to kiss her?

WALTER ECKERSALL

Walter Camp is remembered as the father of football. Walter Eckersall dead at forty-six will be remembered as embodying the spirit of the same game.

From the time he first trotted onto the gridiron until he wrote his last football story Eckersall typified that indefinable something, an esprit that makes it what it is to the participant and the spectator alike.

Physically small, his courage and determination enabled him to crash opposition bulwarks and repeated gains. Not content merely with the role of being a great runner and kicker, he became one of the greatest backers the sport has known.

More important than his athletic prowess was the spirit of fair play which he carried from the gridiron to his typewriter when he became one of the nation's leading authorities and commentators on the gridiron sport. And when every fall he returned to the gridiron as an official he was almost as much a phenomenon as he had been in his playing days. He officiated in big games from the Atlantic to the Pacific and did with the distinction enjoyed probably by no other sport of his time, of never having been rejected by any team or coach when his name was suggested as referee or umpire.

Games refereed by Eckersall went off smoothly for every one was convinced not only that Eckersall was fair but that he knew his business better and saw more of what went on when a game was in progress than any other referee could hope to see.

Not only football but other amateur sports as well lose one of their best friends in the death of Walter Eckersall. But Eckersall's spirit will live on gridiron, cinder path and diamond. He belongs to the immortals of American sport.—Cleveland Plain Dealer.

THE PRIVILEGED CAPONE

To his retinue of straight shooting gunmen who attend him wherever he goes Mr. Al Capone has added a brace of clever lawyers. The have obtained from a United States district court in Florida an order restraining the sheriff of that state from obeying the command of their governor to arrest and banish the gangster from Florida when ever he comes within their notice. This lends to the phenomenon of the Capone case. He gained his wealth by commercializing law breaking in Chicago. When he travels it is with the patent circumstances of a medieval baron feudally depending upon his own arms and the good marksmanship of employed gunmen to protect his progress. When this is resisted by sheriffs he invokes the protection of the very law [illegible] with in Chicago he had the utmost contempt and prospered because of his defiance of it.

All this is putting the bill of rights to a use which its creators never prescribed. They surely did not intend that it should be [illegible] kept as a cover for a notorious character whose very liberty is a mockery of institutions which the law holds sacred the right of others to live secure in the enjoyment of life and property. But we suppose until peace officers and legal governments have the good sense to prefer open charges against the pampered character and prove the charges which have brought him into such prominence throughout the country we must continue to be [illegible] by the [illegible] [illegible] [illegible] [illegible] [illegible] forms of law can be perverted [illegible] use.—Akron Beacon Journal.

are new-life days

Now that the body is bounding into new life after the shut-in-days of winter—don't load it down with heavy, indigestible foods. Shredded Wheat is the energy-food that supplies the vital food elements of the whole wheat grain in a digestible form—vitamins, mineral salts and proteins. Eat it with milk for breakfast and see how it carries you through the forenoon without fatigue.

Class rooms will be increased from the original 36-pupil capacity to 38-pupil size, a science laboratory will be added, the auditorium will be larger, and the library increased to room its only fully planned capacity, according to George A. Bowman, city schools superintendent.

The building will contain 32 class rooms of a 36 pupil capacity each as well as seven others whose capacity will be 43 pupils. In addition there will be rooms for mechanical drawing, household arts, music and public speaking, elementary science and shop, as well as a study hall.

Two gymnasiums will be arranged so that it may be divided into separate rooms for girls and boys, with separate locker and shower rooms. For basketball games and other special occasions the entire gymnasium can be thrown open.

Above the gym, which will be on the ground floor, will be the auditorium which will seat 700 persons.

Work to be bidded on will include excavation, grading, concrete work, brick work, carpenter work, lathing and plastering, painting, plumbing, electric lighting, heating and ventilation.

COUNTY PRISONERS TO BEGIN TERMS

Sheriff J. J. Francis Takes J. C. McClellan to Mansfield Wednesday.

Sheriff John J. Francis and Deputy Roy Chapman yesterday took J. C. McClellan to Mansfield where he began a one-year sentence in the reformatory, following his sentence by Judge George B. Nesbitt of county on pleas of guilty to several charges of issuing worthless checks.

M. E. Love, sentenced at the same time to one year in the penitentiary on a similar charge, was taken to Columbus by Warden Thomas E. Brown, sentenced to not less than one year for burglary of a railroad car and Howard B. Brooks, over penitentiary, was sentenced to a year on a liquor charge, were to be taken today to the Ohio penitentiary at Columbus by Warden and a deputy, while James Darrell, given a 30-day sentence on a concealed weapon charge, will be taken to the Dayton workhouse to begin a similar term to his sentence.

The two men were to have started their sentences soon after the penalties were imposed upon them, but the quarantine on the county jail due to Sheriff Francis' case of smallpox prevented their removal until the ban was lifted this week.

BIG FOUR ROUTE

The Stars Say--

For Thursday, March 27

A DAY of sudden and possibly unusual developments may be looked for under the rule of the very fickle lunar and solar configurations. While there are many surprises for men and profitable ventures, yet there are certain money hazards and each will depend on sound business methods and wise use of opportunities.

Those whose birthday it is are assured of a year of larger opportunities, with progress and betterment of an unforeseen nature, but all depends on wise management.

A child born on this day will be outstanding for a successful career, with many splendid opportunities, but it should have prudence, thrift and well-guarded method early in its development.

TONIGHT

Slow as Lightning

the JOY of LIVING

Your joy may depend upon rich, red blood-cells

A HEALTHY body is vigorous, strong and sound. It is man and woman's greatest asset. It demands that the red-blood cells shall not be decreased in number.

The red-blood cells are its workers—5,000,000 to the cubic millimeter. It is dangerous to let the blood count remain below normal.

With an increase in the red blood-cells, you will be on the right road to Health. This is Nature's way to body power and to clear skin.

You owe it to yourself and family to give S.S.S. a trial. It promotes healthy body building. It helps Nature build rich red blood. For more than 100 years S.S.S. has been helping people regain and retain their strength and charm. It is made from strictly fresh vegetable drugs and is easy to assimilate. Pleasant to take. Thousands of users have testified to its benefits in unsolicited letters of gratitude.

You will be delighted with S.S.S. blood-building and tonic effects. Take at mealtime. At all drug stores in two sizes. Ask for the larger size. It is more economical.

Sport Slants by ALAN J. GOULD

By The Associated Press

THE popular idea about dog racing apparently is that the grey hounds go into a scramble and the luckiest canine wins, in other words, that the element of chance is predominant, with no factor of control such as a jockey exercises in a horse race

The surprising situation, as this observer found it is that the greyhounds appear to employ racing judgment and demonstrate an instinctive knowledge of tactics equally as effective as anything humanly controlled . For instance a walk around the soft banked three sixteenths of a mile track of the Miami Beach Kennel Club, after a race there one evening showed clearly how the dogs (eight of them) had jockeyed along the rail at the turns, then spread out quickly on the stretches to avoid being caught in a jam The important point is that on the turns the dogs bore inward though the mechanical rabbit leading them was on the outer rail

* * *

These racing greyhounds have a competitive life of only about three years starting when about a year old Few are able to keep up with the pack after four years of age Slim and sensitive, they develop a keen racing spirit. Many, if not most of the best racing dogs are bred in the Far West Many Colorado dogs are racing in Florida Butte, Montana is the only city in the country with a population of less than a half million at which the International Greyhound association operates a track.

WILSON, KAUFFMAN ON WRESTLING CARD

Winner-Take-All Match Heads Weekly Show; Semi-Final Brings Back Pat McCarty Against Indian.

WRESTLING fans are assured this week of a card of whirlwind action and fast entertainment in the Crowell Swan which is to be presented Friday night in the Steam Shovel gymnasium at 8 15 p m

Dr [illegible] Wilson will tackle [illegible] in a [illegible] match That should be better than the former one as the former ended in a draw Then Wilson will tackle Clete Kauffman in a winner takes all bout The former college star has been wrestling for the past month under the tutelage of the Dr [illegible] and is confident that he has mastered enough of the fundamentals to take the great Kauffman into camp The match will be one of the roughest and hardest fought that has shown in the ring for a long time Wilson has proved beyond doubt in previous showings here that he likes to mix it up and he emphatically states that this time he is leaving no stone unturned in order that he may beat Clete Kauffman However is predicting another victory over his opponent as they should put on a great battle

Semi Final Good

Rivalling the main go for the honors of the evening is the semi-final match between Irish Pat McCarty and Chief War Eagle the Canadian Indian This is to be a 30 minute hunt scrap Chief War Eagle has a great record behind him although he is not the rough and tumble wrestler that many of the leaders are He is the same gentleman who one time chased the Gentle Jan Kloss down High st in Columbus because he refused to stay in the ring and wrestle The chief is willing to keep the match clean in so long as his opponent does the same but he will accept no rough stuff without giving plenty in return McCarty will have his hands full of this Indian before he finishes his thirty minutes

The preliminary match will be another of Marion's favorites a six club through the ropes Bob Wilson will oppose Farmer Bell in [illegible] to start the festivities

BEANIE IS PASSING BY OUR HOUSE NOW, TOOTS AND I JUST WANT TO SEE IF HE DARES TO COME IN AND TELL A FRIEND OF THE CHIEF'S TO MAKE LESS NOISE!
YOU BET HE DIDN'T TRY TO STOP ME FROM DISTURBING THE PEACE! HE'S MINDING HIS OWN BUSINESS - FROM NOW ON I'LL HAVE HIM EATING OUT OF MY HAND! I HOPE HE NEVER FINDS OUT THAT I DON'T KNOW THE CHIEF!

GEE THAT'S A TOUGH BREAK - HOW DID YOU HAPPEN TO PICK HIM FOR YOUR LAWYER?
WHEN MY POOR HUSBAND WAS CARRIED TO THE HOSPITAL THAT THIEVING AMBULANCE-CHASER CAME IN WITH HIS LYING TONGUE AND TALKED MY POOR MAN INTO SIGNING A PAPER GIVING HIM THE RIGHT TO ACT AS HIS ATTORNEY -
PLEASE DON'T CRY, LADY - PLEASE DON'T CRY - I DIDN'T KNOW WHAT AN AMBULANCE-CHASER WAS - NOW I KNOW - AN I'LL BE DAMNED SOMETIME SOMETHING IS GONNA HAPPEN TO THAT FIEND - I DON'T KNOW JUST WHAT'S GOIN' TO HAPPEN TO HIM - BUT WHAT EVER IT IS, IT WON'T BE HALF ENOUGH -

GAINS SCORED IN CHICAGO PIT

Crop Comments Out of Southwest Unfavorable, Liverpool Prices Climb.

By The Associated Press

CHICAGO March 27—Stirred by unfavorable crop comments from the southwest and by upturns in Liverpool quotations wheat values here scored early advances today Kansas and Oklahoma reports told of continued dearth of moisture and of high winds Opening unchanged to 1¼ up Chicago wheat futures made an all round rise later

Scarcity of future delivery offerings here acted as a stimulus toward higher prices for wheat Low temperatures southwest as well as lack of rainfall there caused anxiety regarding the crop outlook and put bears at a disadvantage Besides advices indicated wheat yields in southern France were expected to be smaller than last year owing to floods

Higher closing prices at Liverpool today 7½@15¾ pence up attracted special notice in connection with word that a good sized export business in Canadian wheat had been worked overnight Considerable attention also was located to reports that large shipments of wheat from various congested terminals had been arranged to points where storage space estimated as much as 50 000 000 bushels was not available
